cryptojackk@gmail.com Take everything I say as pure entertainment value only. Do not take any financial advice from me at all. I am not a financial advisor, I am only documenting my crypto journey for others to watch. With every investment platform, altcoin or program there are a lot of risks. Know what you're getting into and do your own research first! Please understand that leverage trading is very risky and around 70% of people who leverage trade over a period of time may lose money. Keep this in mind and aim to learn the right techniques and trading style before jumping in blind.
